GASTRO 90

Little helpers for freeflow and the catering industry

CARAFINE 14

Beverage presentation made easy with carafes and bottles

STRUCTURE 88

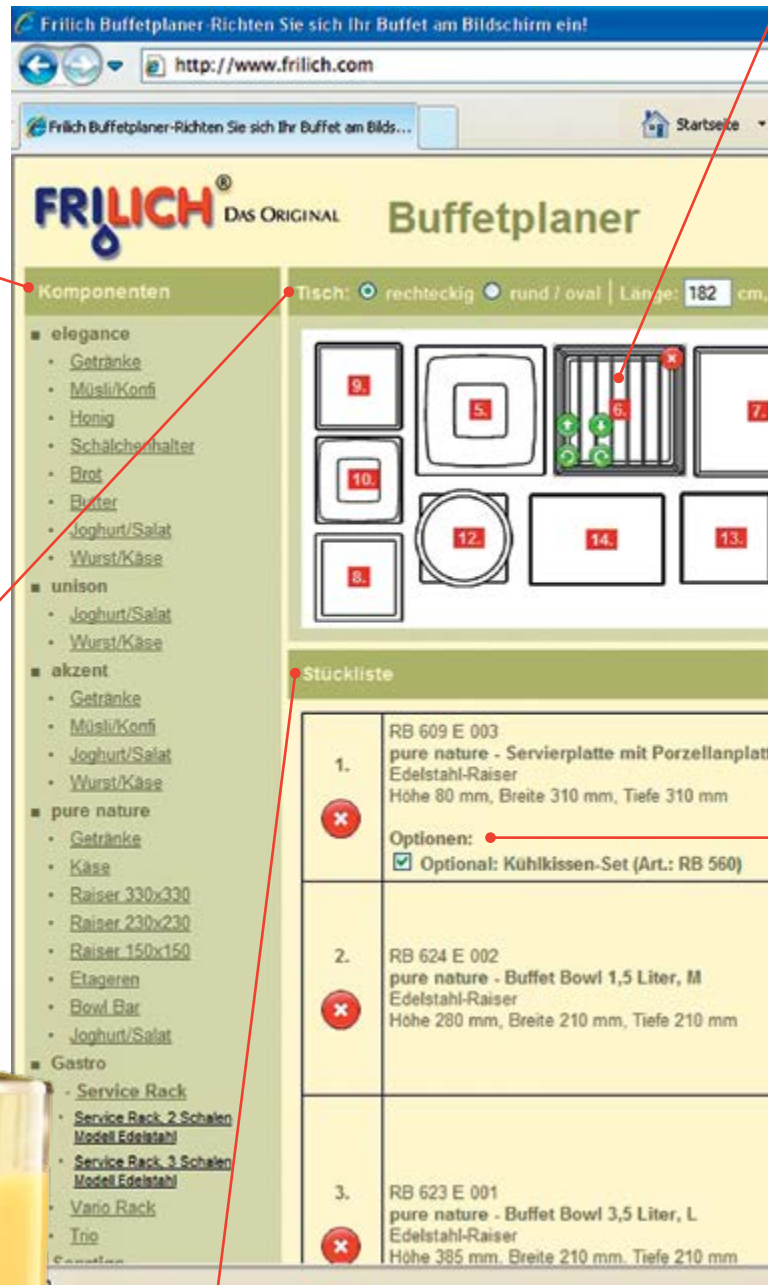

Space optimization with light and clear buffets

FRILICH Buffet Planner at www.frilich.com

Equip existing table layout area with the required buffet items or calculate the required space for your buffet display products. The FRILICH buffet planner offers a presentation tool, which is available to use at www.frilich.com. This module assists you in planning and setting up a perfect matching combination – seven steps to create your individual buffet.

Components: Choose from the various FRILICH product lines, which items you wish to place on your buffet table. Please note that you may select different buffet designs to make an arrangement according to your individual needs and ideas. When you select a particular product from the left hand side of the components list, it will appear for positioning on the pre-selected table area. You can also reserve space for your own products on the table layout, by selecting the menu item 'Other' (last item under the heading 'Components').

Table: You may choose or select a rectangular, round or oval table. Fill in the dimensions box and then click OK. A true to scale image of your table will be generated and shown on the screen.

Parts list: All the selected products will be included in a 'Parts List' together with item code, detailed description and product pictures.

3

Placing and rotating items on the table sketch/image:

The products that you have selected appear from a bird's eye view and in the form of line drawings. You can move and rotate the selected 'part' by clicking on the green navigation buttons, which will appear when you move the arrow cursor/mouse over the drawing. Please note the height dimension of the articles. In order to provide a user-friendly product placement, small buffet items are placed in the front with the bigger items arranged behind.

6

Parts list/Remove all/Print: Part List / Remove all / Print

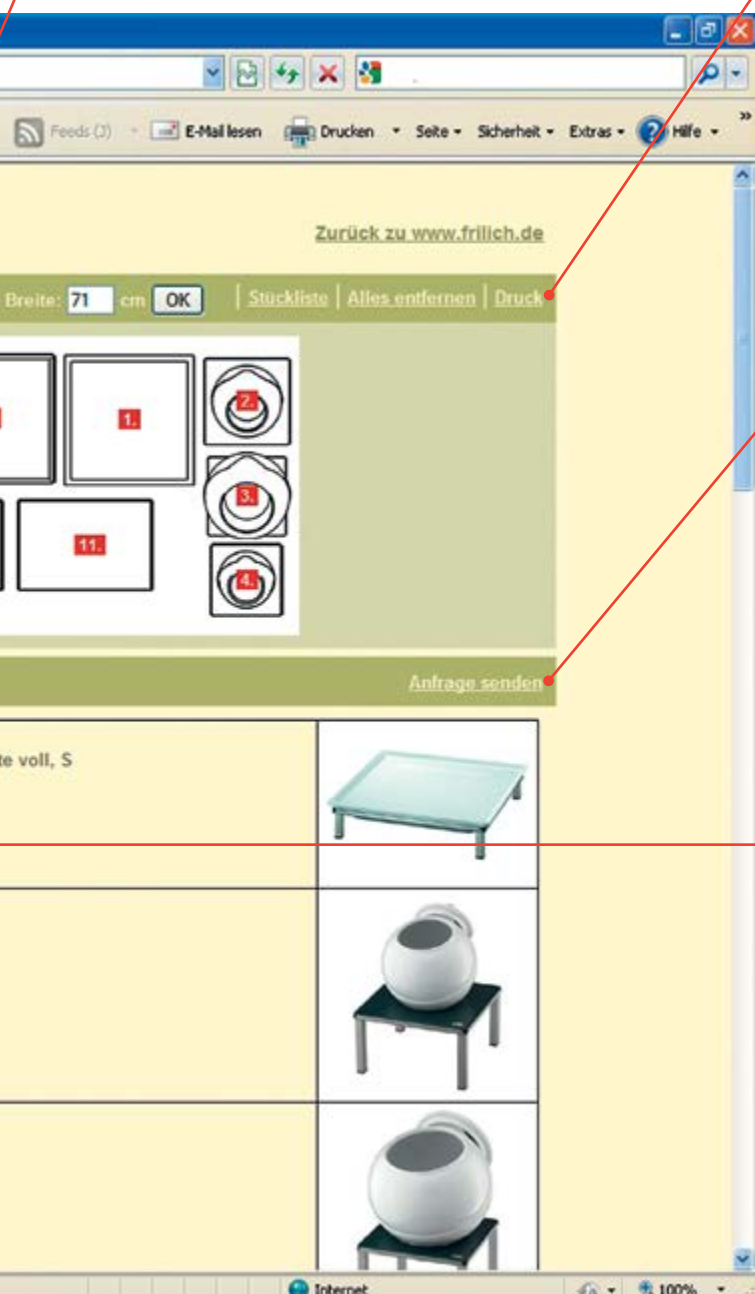

After arranging your buffet, you can again separately access the parts list for printing. You can also remove items individually at any time and start again.

7

Request a quote: The buffet items are placed and you have optimally equipped the table area. By clicking on the 'Request a Quote' button, the FRILICH team or one of our sales partners will submit an offer of the items chosen by you in the parts list. Of course the sales quote is without any commitment.

5

Parts list (Options): On some products you will be able to select further options i.e. product choice.

'Dispenser-Set'

A most individual and creative beverage presentation. With the 'Dispenser-Set', consisting of the FRILICH Stainless Steel Faucet, universal adapter and stainless steel drip dish, a multiplicity of ideas for the buffet can be realized.

NEW!

Article RB 908

Your wish for an individual beverage presentation on the buffet, in the spa area or at the hotel lobby can now be realized with the help of the FRILICH 'Dispenser-Set'.

FRILICH advises which glass- or metal containers are suitable for your purposes. FRILICH assembles the professional Stainless Steel faucet to your container and provides a clean service to the guest with the stainless steel drip dish.

In order to ensure the required raised position of the container, there are no limits to your creativity, no matter if you use piles of books, blocks of wood or pieces of solid rock.

Or get inspired by the functional FRILICH bases on page 58.

Please note

FRILICH does not assume responsibility for the breaking resistance of the containers. Especially with glass containers it is possible that during drilling process tiny cracks can occur which can become larger and can cause breakage. Therefore please unscrew the faucet and universal adapter after use. Check if the container is in good condition, especially the drillhole. Do not hold the container at the faucet or adapter when carrying. The lever action may increase the risk of glass breakage. FRILICH does not assume liability for injuries which are caused through incorrect handling or through disregarding these warning notices.

Buffet with sparkeless elements

Luminous lightning, sparkling twinkle: made with sparkeling elements the Frilich buffet becomes a top highlight.

These sparkeless elements communicate the perfect breeze of glamour, which guarantees each buffet an atmospheric unique performance.

Juice- and Milk Dispenser of the buffet line ELEGANCE

Choose a Frilich product in order to create an exceptional highlight on your buffet. If in stainless steel, either mirror-finished or 24-carat gold-plated, the products are individually produced for you and refined with the crystals. If a partial ornamentation on the lid or a complete band twined round the juice dispenser, you decide your individual design for a perfect buffet. Your FRILICH expert adviser will be at your disposal for your personal guidance.

ELEGANCE is the classic at the breakfast buffet and the consequent improvement of the products designed 'For the buffet' by Frilich more than 30 years ago. This know-how gathered over decades, today marks long durability, quality and pleasure while using the products made of solely high-quality stainless steel, such as juice- and milk cans, cereal-, jam- and honey dispensers as well as freshness dishes. Products in model 'Gold' are made of stainless steel with a 24-carat gold-plating.

for height 23.6" / 600 mm
EB 711

Hygienic cover (29.3" / 745 mm) for all serving plates and dishes up to a width of 29.3" / 745 mm. A perfect method to cover buffet areas larger than GN-size. Especially suitable to cover the Frilich 'pure nature' raiser system (2 x 330)

Example of use

EB 703 E

Height: 15.4" / 390
☞ 29.3" ☞ 16.5"
☞ 745 ☞ 420 mm

EB 710 E

Height: 23.6" / 600
☞ 29.3" ☞ 16.5"
☞ 745 ☞ 420 mm

Hygienic cover (14.6" / 370 mm) for all current serving plates and dishes up to a width of 14.6" / 370 mm, including Frilich Freshness Plates Cool 300. An interesting alternative to the cover hoods with hinged hood device.

Example of use

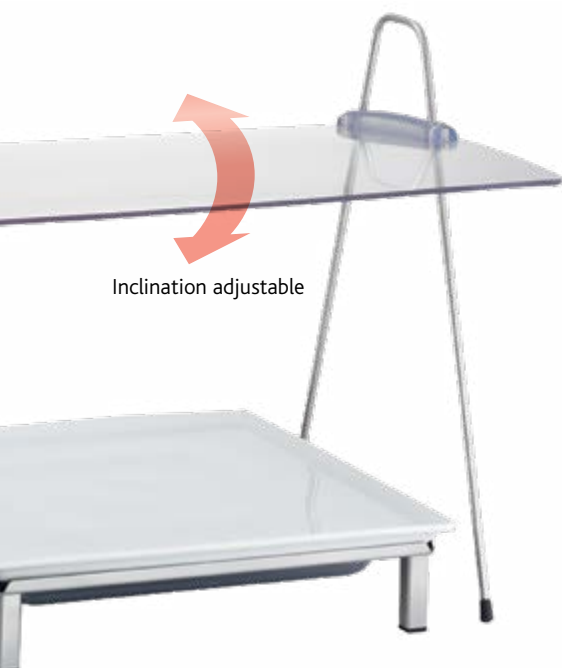

EB 700 E

Height: 15.4" / 390
☞ 14.6" ☞ 16.5"
☞ 370 ☞ 420 mm

EB 707 E

Height: 23.6" / 600
☞ 14.6" ☞ 16.5"
☞ 370 ☞ 420 mm

Inclination adjustable

To present a buffet in hygienic impeccable and attractive manner – Frilich developed a perfect and flexible solution. Profit from convincing advantages:

- Hygienic cover hardly perceivable due to unremarkable modules
- available in 4 different sizes and 2 different heights
- Acrylic glass boards variable adjustable in the pitch
- fast assembly and space saving storing

Hygienic cover (25.6" / 650 mm) for all serving plates and dishes in GN-size including Frilich's plates. An interesting alternative to the rolltop hoods.

Example of use

EB 702 E

Height: 15.4" / 390
 25.6" 16.5"
 650 420 mm

EB 709 E

Height: 23.6" / 600
 25.6" 16.5"

Ask for more variations of laser markings

Laser-Engraving

FRILICH products in Stainless Steel or Wood can be
individually scripted.

This way, juice dispensers, muesli flutes and many
more products obtain their personal mark (as
engraving or print).

Please contact FRILICH for further information.

Example of use

Examples of use

Spoon Rest

Porzellanschälchen für Vorlegebesteck
China Bowl, small, for serving cutlery

designed by *Colanni*

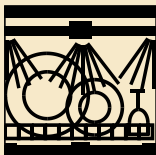

The Frilich stainless steel faucet is conceived from Frilich on basis of long years experience in the gastronomy, which fullfills highest standards at quality and handling. The large outlet guarantees a comfortable and reliable serving of the juice/milk.

It is produced of solid stainless steel, dishwasher-proof and if it is maintained in the right manner the faucet has an extreme long service life.

Do not use tools for cleaning!

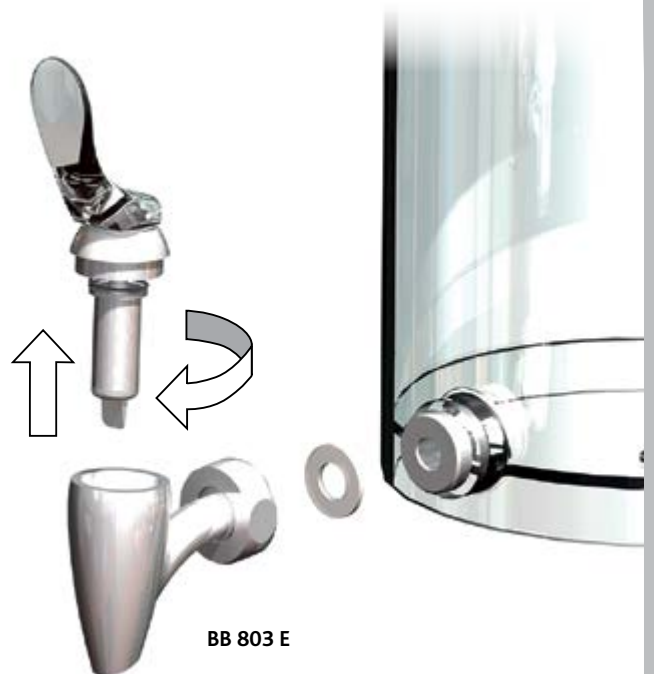

Do not use concentrate (e. g. acetic acid) for pre-cleaning.

Completely dishwasher-proof

Safe for cleaning with commercially available/conventional cleaning agents and devices.

- Do not use concentrate (e. g. acetic acid) for pre-cleaning.

- Safe for cleaning with commercially available/conventional cleaning agents and devices.

Standard Terms of Sales and Delivery

The following Standard Terms of Sales and Delivery apply only to commercial and public sectors according to article 24, sections 1 and 2 of the laws governing Standard Terms and Conditions of Trade (AGB Gesetz) in Germany and, if no other provisions are made, shall apply to all future business with us.

I. Quotations and Conclusion of Contract

1. Our quotations are non-binding and subject to change without notice. The contract shall not become effective until we acknowledge and confirm the order, in writing, or the order is executed. We reserve the right to impose a 5 % export charge (max. EUR 80.–) on export orders for goods within Europe and a 5 % export charge (max. EUR 150.–) on goods exported outside Europe. This covers special packing, handling of export documents, bank charges etc.
2. Any deviation from these conditions of sales must be approved by us in writing.

II. Prices, Terms of Payment

1. All prices are net.
2. Payment has to be made according to the confirmation. Should the buyer fail to meet our payment terms within the agreed period, we are authorized, without issuing a specific reminder, to charge interest of 2 % above the discount rate of the German Bundesbank and we reserve the right to claim any further damages resulting from arrears.
3. Should it arise that, in the period between confirmation of an order and delivery, we are obliged to lower or raise prices, the price to be paid is the new price, valid on the day the goods are dispatched. Should the price be raised, the buyer has the right to withdraw from contract within 14 days after notification of any price rise.
4. We reserve the right to make use of payments made, including any default interest and costs accrued on them, to settle longest outstanding accounts in the following order: costs, interest, principal debt.
5. Counterbalancing price claims with opposing claims that have proven indisputable and legally valid as well as the exercising of rights to refuse payment and withhold goods require our consent.
6. If the customer's ability to pay is in doubt, especially if payments are in arrears, we may, failing more extensive claims, demand payment in advance and security for further orders; we may also revoke granted credit terms.
7. On orders placed for the first time, we reserve the right to deliver the goods against prepayment.

III. Delivery, Force Majeure

1. Delivery deadlines are non-binding, provided nothing has been explicitly agreed to the contrary in a particular case. The seller is authorized to deliver by instalments. We assume no responsibility for events or circumstances occurring due to force beyond our control, not even when binding time limits have been agreed on. When a fixed delivery deadline has been set which the seller fails to meet, buyer is to extend the deadline by an appropriate period of at least 6 weeks. Should seller still fail to deliver the goods within the extension period, the buyer has the right to withdraw from the contract.
2. Should buyer refuse to take delivery, seller is authorized to withdraw from the contract after extending the delivery deadline by 10 days or to claim damages on the grounds of non-fulfillment. In the latter case, the seller is authorized with or without presentation of proof or damage to claim 25 % of purchasing price or compensation for the damage actually sustained.
3. Articles on special offer cannot be exchanged. The seller refuses to accept both the return of any non-standard-line goods specially manufactured and any articles not included in our standard stock programme. This also includes articles which require special ordering from outside suppliers on a client's behalf.
4. Dispatched is always ex works at the buyer's risk and on account. If there is a danger that the buyer may have reason to delay the dispatch of goods, he must warn seller of this danger when dispatch terms are agreed on. Seller assumes no responsibility for damage to and loss of goods in transit. Frilich reserve the right to choose how goods are to be packed and dispatched unless alternative arrangements have been made. Seller assumes no responsibility for insurance coverage. Should, however, buyer express in writing the wish to have goods insured against damage caused in transit or due to other factors, we will gladly comply.

IV. Ownership Proviso

1. We reserve the ownership of goods delivered until the amounts charged have been paid in full. Invoices are regarded as paid when we are in receipt of the amounts due.
2. Should buyer fall into arrears of fail to fulfil obligations arising from the ownership proviso agreed on, seller is authorized, even without making use of right to withdraw from contract and without extending deadline, to demand that, at the expense of the buyer, the goods in his possession be returned to him and that he collect them from the buyer. Further to this, all outstanding balances must be settled by the buyer immediately. Seller's reacquisition of the goods delivered does not classify as a withdrawal from contract. After giving buyer fair warning and setting an adequate deadline, we are authorized to make as good a direct sales as possible of the goods previously dispatched, adding a supplementary charge to the purchasing price. Buyer must bear all costs of our reacquiring and reselling the goods. Realization costs are 20 % of proceeds from sale of the goods, inclusive of turnover tax, and do not require verification.

V. Liability for Defects and Damages

1. Complaints will be taken into account only if they are made immediately in writing or, at the latest, within 8 days of receipt of the goods, and are sent to seller along with receipts and samples plus number and date of invoice. Where damage has been caused in transit, complaints must be lodged in writing immediately on receipt of goods by buyer or, at the latest, within 2 workdays.
2. Goods which are the object of complaint may not be returned to us unless our consent has been given.

VI. Warranty

1. The warranty covers the replacement or repair of defective parts. Excluded from this warranty are damages which result from:
 - a) Improper handling of the device, especially improper or insufficient cleaning.
 - b) Natural, normal wear and tear
2. Our warranty only applies within the Federal Republic of Germany, for customers who have purchased the device directly from us or from one of our dealers. The warranty begins on the date of delivery and extends over 12 months.
3. Disregard to operating and cleaning instructions results in the cancellation of this warranty.
4. Complaints of any kind must be made to us, in writing, within 14 days after receipt of the goods or immediately upon occurrence of the damage.
5. Parts included in the warranty will not be invoiced, whereas shipping costs, labour and travel time are to be paid at our standard rates.
6. No claims beyond those stated in this warranty may be made, especially regarding compensation for subsequent damage.

VII. Place of Fulfilment and Seat of Jurisdiction

1. The place of fulfilment from which services to seller are operated is Giessen, Germany. If buyer is an accredited businessman, the responsible legal authority is Giessen or, at our discretion, the buyer's local court.
