## Lustrous Metallic Glaze

# Cosmo Melamine Dinnerware

Set your tables worlds apart from your competitors' with this well-chosen tabletop collection.

The Cosmo collection creates dramatic plating with a lustrous special glaze of surprising depth in three food-friendly colors. Mix and match all three colors or focus on your favorite one.

Astonishingly like a metallic glaze you'd expect to find on porcelain, Cosmo is made from durable, premium weight melamine.

Chefs not only get a dramatic backdrop for presentations, they'll save 3:1 over fragile porcelain and WOW their guests.

The Cosmo collection offers beautiful plating options for nearly any menu and nearly all serving environments: indoor, outdoor or the galaxy next door!

## Reasons to Lift Off With Cosmo

- Unique lustrous metallic glaze with incredible depth in 3 food-friendly colors
- Striking food-friendly backdrop for Chef's recipes
- Mix and match or go single-color - you'll delight your guests no matter what
- Well-chosen tabletop collection that accommodates a wide variety of menus and décors
- Save 3:1 by using premium weight melamine instead of fragile porcelain with zero compromise on style
- Fully stocked and ready for immediate shipping and sampling

# Cosmo Stardust: New to the Crew

NSF

The NEW Stardust color encapsulates the cosmos with its food-friendly silver-gray surface and celestial shimmer. Use all 15 pieces, including plates, bowls and a platter, to serve nearly anything. Pull a design thread through your plating or mix and match with the other two harmonizing colors.

## Who Should Serve on Cosmo Melamine?

Nearly any foodservice operation can benefit from Cosmo's lustrous metallic glaze style in three food-friendly colors and the cost savings from using long-lasting melamine:

- Patio, outdoor and rooftop dining
- Casual theme restaurants
- Fast casual restaurants
- Hotels and resorts
- Cruise lines

## Who Should NOT Serve on Cosmo Melamine?

Melamine is an excellent material for most operations but porcelain performs better in a few areas. If your operation commonly uses the following techniques for cooking and serving, porcelain, or a mix of porcelain and melamine are better choices.

- Plated entrées requiring a steak knife
- Plated entrées requiring oven or salamander finishing
- As always, melamine should not be microwaved
