Just-Right Manila

The manila color palette with cocoa rims creates the perfect pattern: not too dark, not too bright, but just right.

Chefs love how this soothing neutral plating area makes their food pop while the cocoa rim draws guests' eyes toward the center of the plate.

Nearly any foodservice operation can benefit from Pottery Market Matte's authentic kiln-fired look, gorgeous matte surfaces and the cost savings from using long-lasting melamine:

- Casual theme restaurants
- Fast casual restaurants

Who Should NOT Serve on Pottery Market Matte?

Melamine is an excellent material for most operations but porcelain performs better in a few areas. If your operation commonly uses the following techniques for cooking and serving, porcelain, or a mix of porcelain and melamine are better choices.

- Plated entrées requiring a steak knife
- Plated entrées requiring oven or salamander finishing
- As always, melamine should not be microwaved
