Crafted from Tritan copolyester, *the* upmarket plastic for elegant design, peak clarity and durability, you'll easily avoid the disaster of shattered glass on or near your bar.

Plus think of the money you'll save when you're not constantly replacing your glassware. Tritan outlasts glass barware 4:1.

## Runway Style, Destination: Your Bar

Go from bartop to catwalk the moment Via glasses grace the surface.

Like the perfect outfit you can dress up or dress down, Via offers stylish barware that fits all occasions. You'll turn heads whether you're serving happy hour to sports fans or a champagne-and-caviar brunch in the garden.

Your bar can serve show-stealing cocktails with Via regardless of where you set up your drink-slinging station: on a patio, poolside, rooftop, dance floor, outdoor catered event or at the spa.

Thanks to the increased demand for outdoor dining, this is great news. Tritan's durability allows you to take the fashion show anywhere you like and never, ever worry about shattered glass.

## Stylish Stems

Impress your guests with these slender, sleek stems. With flawless elegance, Via stemware combines grace and style with strength as the driving design elements.

New to the lineup are a copa gin, whose round body is designed to channel the aromatic botanicals to your palate, and three new wine glasses with chic bodies.

These new pieces join a goblet, champagne and white wine glass, for seven swanky stem selections.
