Why You AND Your Guests Will Love Eco-Takeouts®

Eco-Takeouts® offer an improved guest experience over flimsy polystyrene and paper products. They are attractive containers and plenty sturdy, giving guests a much better dining experience.

But the good news doesn't stop there:

- Keeps hot food hot significantly longer than polystyrene, especially helpful for high-volume service
- The most comprehensive line of reusable to-go containers on the market with constant new product development
- Fewer order mistakes thanks to transparent containers
- Easy stacking
- Microwavable for reheating food in one-minute pulses
- Recyclable #5 plastic

Eco-Takeouts® Luxury Black Edition

Introducing the first - and only - line of black Eco-Takeouts® reusable containers!

The luxury black edition features the same durability, cost and waste savings you love, now with an upmarket black container.

Four- and 5-star hotel and restaurant brands use black disposable to-go containers to denote

quality, professionalism and value. They look sophisticated, but disposable containers leave a lot to be desired: high cost and waste for the operator; flimsy vessels for guests.

The luxury black edition Eco-Takeouts® provide an excellent guest experience with the built-in operator benefits of huge cost and waste savings, all with a truly sophisticated look.

Eco-Takeouts® Two-Tone Edition

Our Eco-Takeouts offering just got larger, with three new sizes in our stunning two-tone colorway. These are perfect for any establishment that is looking for a more luxurious option with the black base, while still being able to see inside with the clear lid.

- Keeps hot food hot significantly longer than polystyrene, especially helpful for high-volume service
- Fewer order mistakes thanks to transparent containers
- Easy stacking
- Microwavable for reheating food in one-minute pulses
- Available as MTO

Who Should Implement an Eco-Takeouts® Program?

Eco-Takeouts® work best in a closed loop system. Colleges and universities, business and industry campuses, hospitals and senior living are perfect examples of closed loop systems ideal for Eco-Takeouts®.

Additionally, meal delivery services, individual restaurants and restaurant collectives can benefit by offering a reusable program to their regular guests.
